SUMMARY

Full stack developer with passion and Masai certification. 1200 hours of practical experience building numerous websites and applications. Possess a broad variety of front-end and back-end expertise, including HTML, CSS, JAVA, and JS. Create 5 or more projects from scratch. More than 400 data structure problems were resolved. I'm looking for a position that will challenge me. Striving for excellence with commitment, initiative, a positive approach, and a love of the work. My technical and analytical skills are best utilized here to meet the demands of the business while meeting my personal goals.

PROJECTS

lately.ai Clone

https://lately.netlify.app/
Cloned lately.ai website within 5 days along with 4 aspiring developers.

- It is an A.I. powered social media marketing management platform that creates contents for businesses.
- As a project lead, I assigned tasks to everybody and also I used to track progress daily.
- **We used HTML, CSS, JavaScript and jQuery in our project.**
- My responsibility was to build Header, Footer, Homepage functionalities and make the website responsive.

Deccan-Herald Clone

https://deccan-herald.netlify.app/
Cloned Deccan-Herald website within 5 days along with 3 aspiring developers.

- Deccan Herald is an Indian English language daily newspaper.
- **We used HTML, CSS, JavaScript and jQuery in our project.**
- My responsibility was to build Header, Footer and Homepage.
- I also helped other teammates to achieve their daily tasks.
